SofTec Solutions Appoints Frank Sain as Chief Operating Officer

ENGLEWOOD, Colo. – September 1, 2011 – SofTec Solutions, announced today that Frank Sain has been named Chief Operating Officer. Hemal Jhaveri, SofTec Solutions CEO states concerning Mr. Sain, “I am pleased to have Frank on the team; he brings a wealth of knowledge and experience working with the government and private sector. With his help and leadership, I am looking forward for our team to go to the next level.”

A results-oriented executive with over 20 years’ experience delivering complex technical business solutions aligned to clients’ missions, strategic initiatives, budgets and mandates, Frank is responsible for all corporate activities of the company. Mr. Sain brings both business development and project management experience for enterprise-level professional services for federal government clients.

Most recently he was the Director of IT Solutions for Science Applications International Corporation (SAIC). While at SAIC, he held a variety of positions and was strategic in capturing and winning over \$200M with such clients as the Intelligence Support Command (INSCOM), National Ground Intelligence Center (NGIC), and United States Army Pacific (USARPAC). Frank holds a Bachelors of Science in Technical Management from Wayland Baptist University in Plainview Texas and Master’s in Business Administration from Regis University in Denver. He served on Active duty in the US Army from 1988 to 1998, specializing in Intel and Intelligence Applications.

SofTec Solutions, Inc. made no other organizational or reporting structure changes in conjunction with this announcement.
